RagFlow:

根据知识库内容，High Dividend Fund确实有performance fees，但具体情况因份额类别而异：High Dividend Fund Performance Fee结构
份额类别 Performance Fee Class A1 15% of profit (Highonhigh principle) Class A2 MDis 15% of profit (Highonhigh principle) Class A Acc Nil
(无performance fee) Class B Nil (无performance fee) 这个fee结构在多个月份的报告中保持一致，包括2025年1月至9月的数据。[来源1][来源2][来源3][来源4][来源5][来源6][来源7][来源8][来源9] 总结：Class A1和Class A2 MDis：收取15%的performance
fee，采用Highonhigh原则 Class A Acc和Class B：不收取performance fee 因此，High Dividend Fund的某些份额类别确实有performance
fees，但不是所有类别都收取。

Feishu:

Yes, the High Dividend Stocks Fund has performance fees. The performance fee structure is as follows: 1. Performance Fee Calculation : 15% of profit (Highonhigh principle) . 2. High Watermark Condition : Performance fee will only be charged if at the end of the financial year the NAV (before deduction of performance fee and relevant distributions) exceeds the “ high watermark, ” which is the alltime yearend high of the Fund ’ s NAV for the accumulation classes (and dividend adjusted equivalent for distribution paying classes). If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully . Please note that this information is subject to change, and investors should refer to the latest offering document for detailed fee structures and terms. Feishu:

The investment objective of the Asian Income Fund is to maximize return and income by investing in Asian equities, Asian fixed income securities, and other assets related to Asian companies that meet specific criteria, while also aiming to achieve lower portfolio volatility. Here are the key points: 1. Investment Scope : Equities and Fixed Income : The fund invests primarily in Asian equity and fixed income securities, including convertible bonds. Asian companies are defined as those that are listed in Asia, have registered offices in Asia, or generate a predominant share of their sales and/or profits in Asia. 2. Risk Management and Volatility : Lower Volatility : The fund aims to achieve lower portfolio volatility by actively screening and selecting a combination of lower volatility equities and fixed income securities. 3. Return and Income : Maximize Return and Income : The primary goal is to maximize both return and income for investors. Please note that while the fund aims to achieve these objectives, there are no guarantees, and investors should carefully consider the risks involved. For detailed information and risk factors, please refer to the explanatory memorandum. (From Feishu Knowledge AI <https://ask.feishu.cn>)
